This is probably my favorite Angry Birds version. The levels are challenging but not so hard that I give up. I also love that it follows a story line and I love the monkeys.

I love this game! It has the storyline of the movie and it's a little bit easier than the original but I think its better and it's more addictive.

angry bird rio January 22, 2013

By [Jessica](#)

Verified Purchase

I got this game because angry birds rio is on my laptop and may be my favorite version of this game. In the computer version you started with 3 sections of this game available to be played.. My only gripe with the kindle version is that you only start with one section and if you don't win easily you get stuck without other alternatives to play and it is VERY frustrating.
